

SERVICES PROVIDED BY GCI

- Scheduling

MAIN PROJECT ELEMENTS

- 3 Million S.F. Complex
- 3,600 Car Parking Spaces
- 1,103,538 S.F. Exhibition Space
- 1,500 Foot Long Open Air Walkway Across International Drive

ORANGE COUNTY CONVENTION CENTER (Phase V)

This project added one million square feet of new exhibition space to the existing Orange County Convention center complex. The new construction is connected to the existing exhibition space building by a 1,500-foot long, open air walkway across International Drive.

During the 3-year construction period of the Convention Center addition, completed on schedule and within budget, GCI provided scheduling support to the Owner's Authorized Representative (OAR) staff. GCI participated in the preparation and the monitoring of the 10,000-activity Master Schedule, produced monthly schedule updates, as well as monthly progress reports to the Citizens Oversight Committee and the Orange County Board of Commissioners. GCI's scheduling work contributed to cost control oversight and aided in claims avoidance.

CONSTRUCTION COST: \$490,000,000
COMPLETION DATE: SEPTEMBER 2003
